About Me

Hi! I am **Ali Hassan**, a student currently learning Full Stack Development at Tecstem Technologies. I enjoy building things for the web and solving real-world problems through code.

I am passionate about creating clean, user-friendly websites and growing my skills every single day.

Skills

- HTML5 — Semantic markup & structure
- CSS3 — Styling & layout
- JavaScript — Logic & interactivity
- Git & GitHub — Version control
- VS Code — Code editor

Projects

1. **Personal Portfolio** — A profile page built using HTML and CSS from scratch.
2. **To-Do App** — A simple task manager using HTML lists and basic structure.
3. **Restaurant Landing Page** — A single-page site for a local restaurant.
